

360° Learning Management

The limitless LMS from
the experts for digital
Learning

imc Learning Suite

Tailored Learning Management

360° Learning Management

Classroom or digital, social, on the job, blended, mobile or adaptive learning based on artificial intelligence – designed digital learning environments according to your personal needs.

Make it your LMS

Adaptable, configurable, modular, scalable. The imc Learning Suite can be fully tailored to your requirements.

Usability without limits

Decide when and where your LMS should support learning: Offline, online, on a tablet, smartphone or desktop PC.

Proven security

Reliable interfaces and integrations: Meeting the strictest security standards for over 20 years.

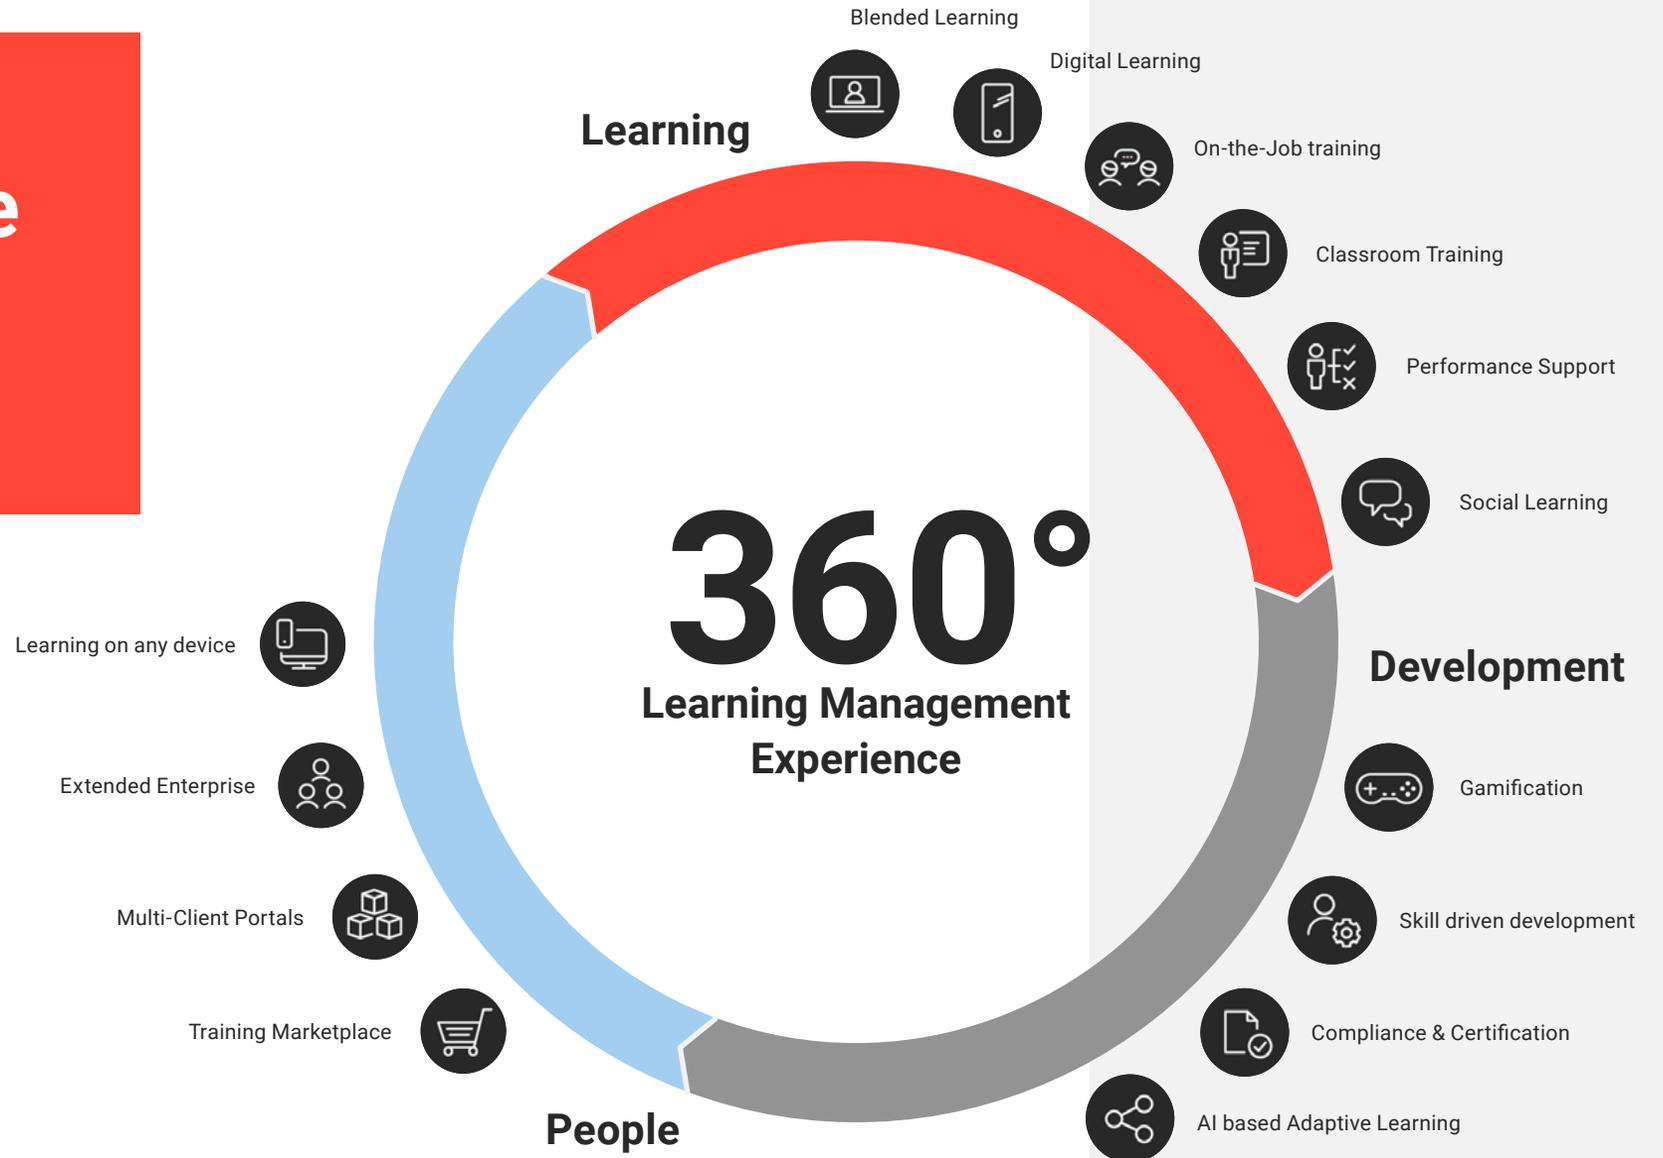

We've got your back

Our colleagues around the world support you in all aspects of e-learning: Technology, strategy and content.

imc Learning Suite

One learning software
can do it all

Manage all your learning processes
in a single system, fully integrated
with your IT ecosystem.

One Solution for all Processes

Competency management

Document individual skills in the competency database and enable learners to close and knowledge gaps independently.

Gamification

The Learning Suite includes a gamification engine which can gamify all learning activities across the entire platform. Points and badges visualise the learners' successes.

Learning paths

With learning paths, long-term professional development plans can be realised without having to book each course separately, and certifications can be added.

Recommendation engine

An artificial intelligence system recommends contents based on a learner's individual learning history and personal interests.

Make it your LMS

Adaptable, configurable, modular, scalable.
The imc Learning Suite can be fully tailored to your requirements.

Customised learning portal

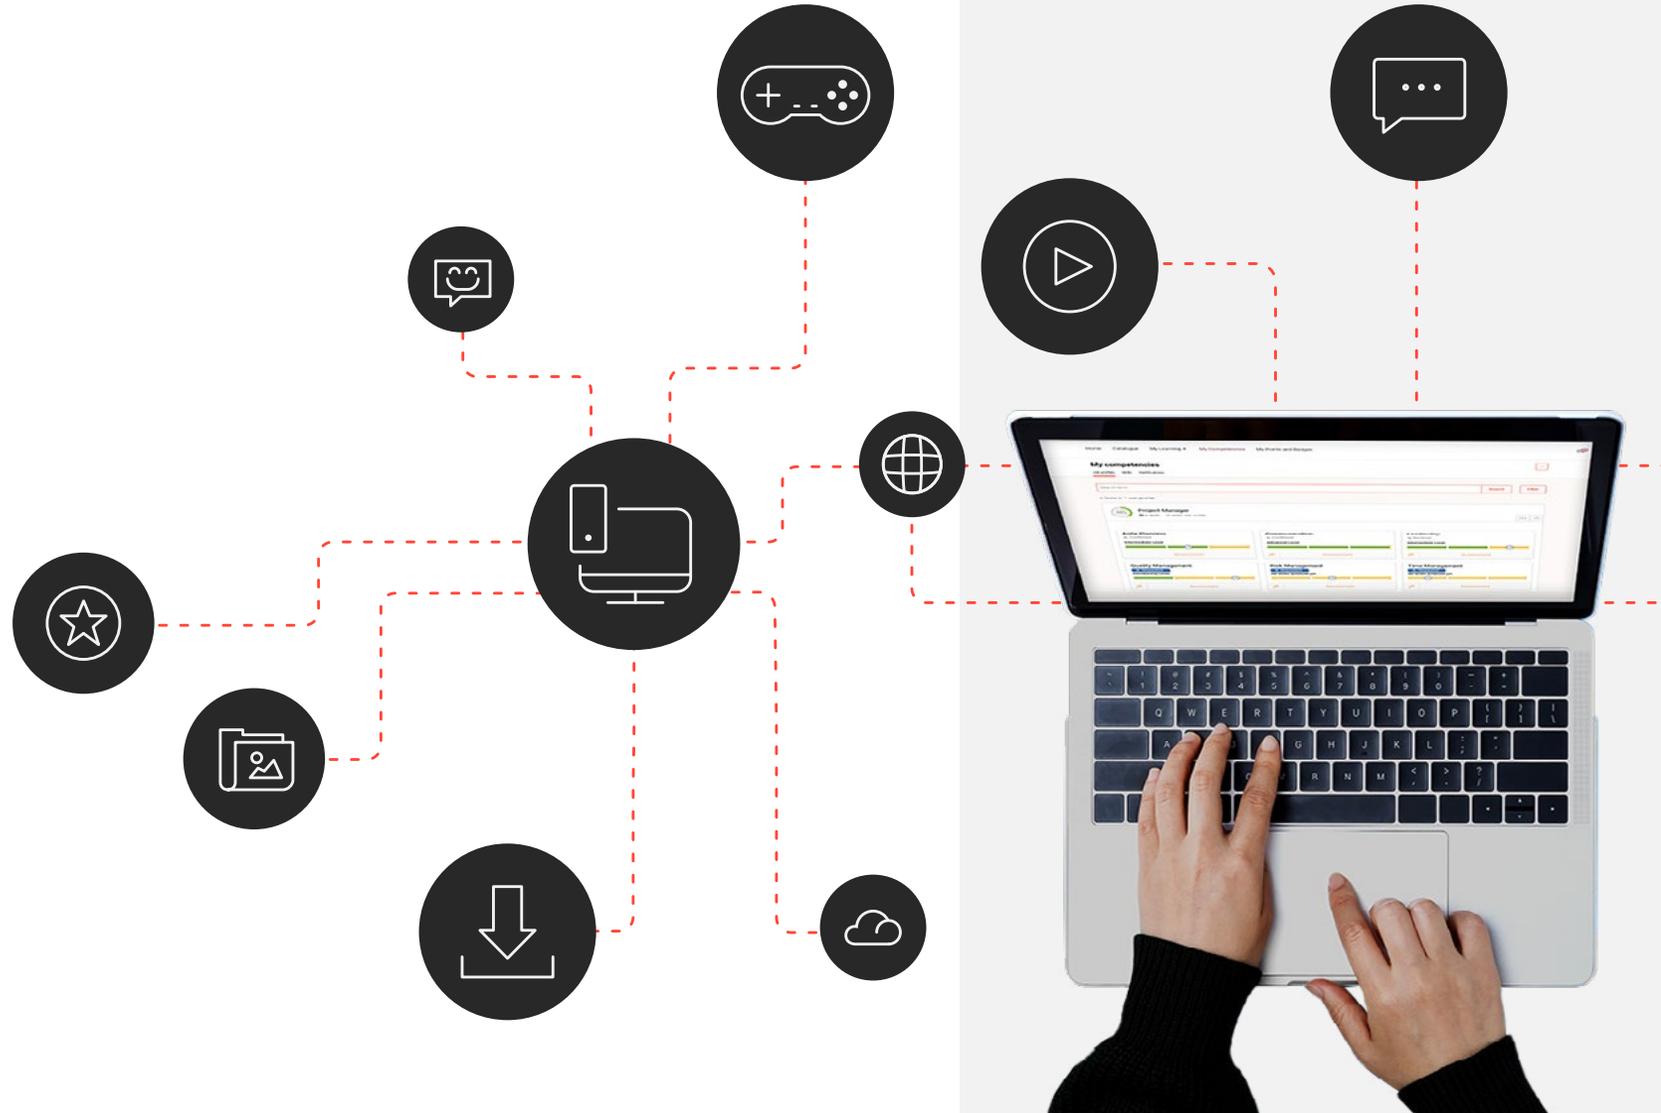

The learning portal is tailored to your design, enabling you to address different target groups through functions such as news, catalogue searches and learning path mapping.

Usability without limits

Decide when and where your LMS should support learning: Offline, online, on a tablet, smartphone or desktop PC.

Think in terms of learning ecosystems

The Learning Suite provides you with comprehensive API management and standard interfaces for any learning ecosystem.

Smart Administration

Automatically efficient

Minimise administration: Automate complex and recurrent processes for maximum efficiency.

Automated reporting

Always keep track of user behaviour, learning outcomes and the current status of compliance-related processes.

Complex certification processes have never been this easy

The learning management system offers reliable support in the implementation of sophisticated certification processes and compliance measures.

Decentralised organisation with central responsibility

Do you have a global, decentralised learning organisation? Set up fine-grained roles and rights for efficient learning management.

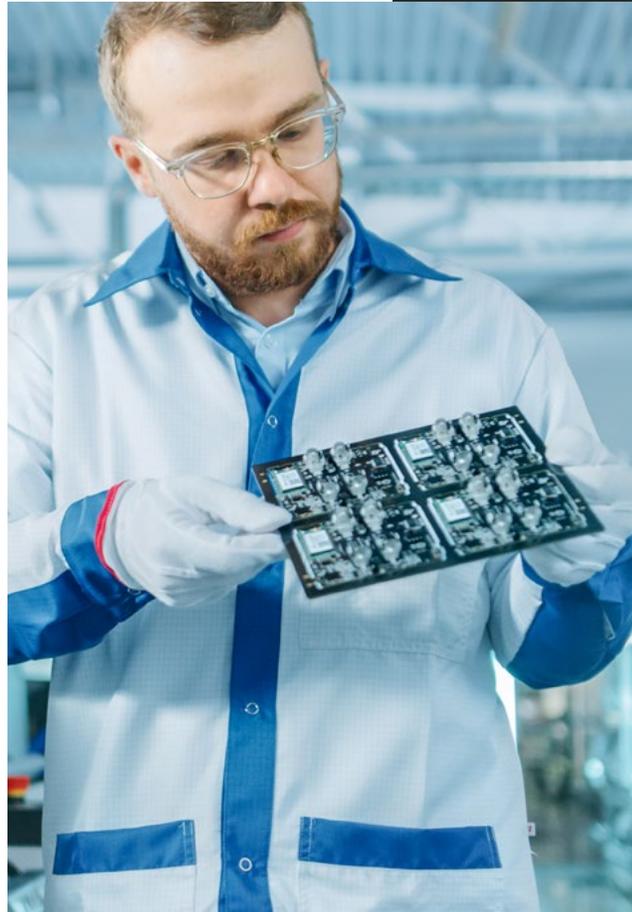

Customer Projects

We help a global manufacturer of **medical technology** to cope with increasing legal requirements and at the same time motivate over 100,000 learners.

A **chemical company** with over 120,000 employees mastering the challenges of digital transformation with us.

Six leading **car manufacturers** rely on our expertise to train their employees and dealers worldwide.

One of the largest **watch manufacturers** in the world inspires employees and customers with our innovative training content.

We deliver customized digital learning experiences and learning ecosystems that are as individual as your learners.

Sven R. Becker, Board member imc

References

“ We found the cooperation with imc to be very pleasant and professional. Our requirements were implemented 100% and when the time was tight, our needs were accommodated as flexible as possible.

Jörg Karrenbauer,
technical trainer at the
Villeroy & Boch Global Academy

“ We see that with the Learning Suite, many things have become possible that used to be a challenge for us. Training processes can now be mapped and administered much more quickly and easily.

Udo Link,
E-Learning Team Leader,
Lufthansa Flight Training

“ It's always a pleasure working with imc. Above all, we appreciate the constructive and pragmatic way in which we have dealt with each other in the projects that we carried out together.

Martin Zimmer,
Online Training Officer at Hager

“ We already see a significant advantage in the speed with which we can reach many employees – regardless of time and place.

Awards

The award-winning imc product portfolio includes **learning management, performance support** and **authoring solutions.**

imc supports you at every step in the planning and implementation of **training strategies** – from learning concepts to advice on setting up a Learning & Development Academy.

This offer is complemented by the area of **e-learning content** with the conception and creation of customized learning content. An extensive library of over 2,000 hours of immediately available standard learning content completes the portfolio.

Rewrite the way we learn

We make learning better – by redefining the way we learn. Experts in the fields of technology, e-learning content and strategy work hand in hand to provide holistic and customized e-learning solutions worldwide.

Learning technologies

Our solutions for learning management, performance support and authoring help you design an even more effective training strategy.

Learning strategy

Our consultants support you in every step of professional development strategy planning and implementation – From learning concepts like blended learning to guidance for establishing a learning & development academy.

E-learning content

The digital learning content we develop for you is as individual as your company. We also offer more than 2,000 hours of standard learning modules you can utilise off the bat.
